EXPERIENCE

Website Manager

Jul 2022 – Present

Office of Public Affairs and Communications, Yale University

- Administer 13 key websites, including major site enhancements that aid employee productivity.
- Serve as Technical Lead on major website upgrade projects with large budgets, delivering on time and under budget.
- Coordinate a network of content contributors, ensuring accuracy, consistency, and elimination of duplicative content.
- Manage a site AI chatbot assistant to reduce tier-zero requests through QA, launch support, and ongoing accuracy.
- Lead analytics strategy across a platform migration (Google Analytics 4, Tag Manager) and build self-service LookerStudio dashboards.
- Resolve technical and coding issues across Salesforce Email, SharePoint, and Drupal; meet a two-day turnaround on ~10 daily requests.

Graphics / Web Assistant II

Oct 2019 – Jul 2022

Department of Emergency Medicine, Yale School of Medicine

- Designed, edited, and developed website content, managing web requests end to end.
- Identified, evaluated, and resolved website problems; tested pages for accuracy and functionality.
- Designed and formatted print materials including publications, brochures, and newsletters.

Communications Intern

May 2019 – Oct 2019

Department of Emergency Medicine, Yale School of Medicine

- Created and compiled content for newsletters, social media, and articles.
- Managed social media platforms, optimized the department website, and designed graphics for publications.

Student University Photographer

Aug 2018 – Jul 2019

Office of Integrated Communications and Marketing, SCSU

- Photographed events and subjects across a range of university needs.
- Supported the university brand through photographic services and updated web content using Drupal templates.
